

Prom Tips for Parent.

Prom night is one of the most anticipated nights on the student calendar. From the moment you son or daughter find their date, to the moment he or she shows up at the door, every moment needs to count toward making the night both safe and special. Though you may worry about your child staying out late on prom night, hiring a chauffeured limousine for the most important social event of the year can transform Prom night into an extraordinarily memorable, safe, and enchanting evening for your student, and offer the parents the peace of mind to make it through the night.

1. **SET SOME GROUND RULES.** As the parent you have the right to tell the limousine company what will and what will NOT be tolerated in the limousine. We will keep the privacy screen down all night, so the chauffer can keep an eye on what the students are up to. If any of your rules are broken, the chauffer can turn the limousine around and bring the students home.
2. **GIVE THE LIMOUSINE COMPANY A CURFEW.** That's right. The chauffer will abide by any rules you set forth. We will make sure they are picked up, and dropped off at a certain time, and location per your instructions. If there is a problem doing this, the chauffer will call the parents to let them know.
3. **CHECK ON A CITY LICENCE, AND INSURANCE.** Reputable companies will be licensed in the city they are located in. They will all have the industry standard for insurance of 1.5 M.
All chauffeurs will be licensed with a city license.
4. **REMEMBER TO SIT BACK AND RELAX.** A reputable company will hire drivers that are properly trained and with proper licensing. These chauffeurs are used to catering around important and excited passengers all day long, so they know how to keep things under control.
