

Wedding Tips

Congratulations on your Upcoming Wedding

We at Corporate Limousine Service want your experience with chauffeured transportation to be a memorable one. We want you and your loved ones to experience the style and elegance our industry provides, and we want your day to be perfect in every way. Here are some tips.

1. Be sure that your selected limousine company is duly licensed in the city they are headquartered in, also that they are insured properly.
2. Determine the number of people you are transporting. Limousine companies typically quote the number permitted passengers in their vehicles based on guidelines from the manufacture. Typically, the manufacture quotes a gross weight of the vehicle (FMVSS requirements) and a number of passengers based on 150 pounds per passenger. Unless you have extremely thin men in your party, booking the maximum number of people in the limousine will be extremely uncomfortable. For example, a six passenger limousine is normally stretched 65 to 70 inches. The vehicle is cut in half, stretched 65 to 70 inches, then finished by the manufacture. This is comfortable for four adults. So lesson #1 is do NOT book the limousine to its maximum capacity. Instead, rent a larger one, or rent two of them. Never underestimate how warm and uncomfortable formal clothing is and how much worse its wearer can feel in close quarters.
3. Timing: Weddings do not often go off with military precision. Rent the limousine for an extra hour beyond the expected schedule. Have the limousine arrive 15 – 30 minutes early to allow extra time for the photographs. Receiving lines take 25 minutes for every 100 people. Photographers take more time that you probably figure on. It is extremely stressful on very one if you have left inadequate time for your charter. Limousine operators often have more than one event scheduled in a day. DO NOT assume that you can add time to your charter on your wedding day. Spend a few dollars more so your limousine is guaranteed for all of the hours that you require.
4. Visit the limousine operator you are renting from. Insist on a written contract. A credit card works best. We will put 50% of the charter fee on the credit card when to contract is received. The remaining 50% will be put on during the week before time. A check will work for final payment if it is received 2 weeks before the event.
5. As much as possible, keep alcohol out of the limousine. Drinkers, plus excitement and formal clothing, can be a receipt for a disaster. Consider hiring a van, or sedan to be on hand as a “designated driver”, for those NOT using their best judgment at the wedding reception.
6. We include the gratuity for the chauffer in our price. If they have treated you well ,an extra cash tip would be greatly appreached. If the service is great, a thank you card would be nice. If the chauffer has not delivered service, please inform the owner.
7. Breakdowns & Accidents. Limousines are machines. They sometimes get flat tires, belts break, and hoses let go, like any other vehicle. We do our best to keep them in good shape. If we are in an accident a few days before the event, or on the way to your event, we will do our best to get other transportation if this happens. If not, you will get a 100% refund
